

COMMENTS TAKEN FROM KANSAS CITY QUESTIONNAIRES

1. All possible events should be held in the headquarters hotel. This makes it more convenient for the handicapped and elderly.
2. A suggestion was made that the WNGGA have special tapes made of the favorite hymns -- the various parts - one tape for sopranos, one for the altos, etc.. A church does it and it helps the various people learn to sing their specific parts. If these were available we could practice as we are driving to and from work.
3. Limit the time of the Noson Lawen. Possibly limit the amount of time each performer is on stage. In the past the Noson Lawen has been too long.
4. The visiting choirs should sing more Welsh. If we did not want to hear the Welsh singing there are any number of outstanding choirs in the United States..
5. Let's have another printing of the "phonetic" hymnal.
6. The "venue" committee should have a letter enclosed in the packet explaining that people should trade their banquet tickets for specific tables, and make contact with their friends before asking for table assignments.

When the invitations letters are composed they should include directions from the various main highways leading to the hotels. This would be a tremendous help for those driving.
7. Limit the number of new hymns to be sung at each National to two.
8. The banquet should be scheduled for 7:30 instead of 7:00 p.m., thereby, allowing a little more time for the local people that will be working.
