Dear Mr. Meadlands,

Re-Voting annual meeting 1976

Prefix In my opinion, I believe the following "Amendment to Articles of Incorporation" 1972
to be true.

Under date of Sept 4th 1976 at the Annual General meeting illegal votes were knowingly cast and by your own admission to the members of this corporation duly present, recorded by way of minutes you are a party to this act.

I would proceed further and state you are the instigator of this illegal practice and the time has come for you to resign forthwith.

In 1972 you prepared a document to amend the Articles of Incorporation by way of name change, without authority of annual meeting and obtained the signature of Emlyn Lloyd to, shall we say make it look authentic.

However you made two mistakes ruling out the authority of the Annual meeting and using the name "Welsh" in the name.

People knowledgeable in the Welsh title printed out this error, minutes were carefully checked, but they were silent as to Annual meeting Approval.

2) In 1975 at New York you lied about this before the Board of Trustees and have placed a false document on file with the Secretary of State (Ohio).

There are other items under close investigation concerning C.A.B. regulations, F.R.S., civil codes and corporate management which may prove you are unfit to continue in this office. My advice to you is to tender your resignation quietly to our new President for your own sake and peace of mind.

There is a saying be sure your sins will find you out.

For some years you have tried to bluff and fool people, but there is only one fool in all this and that's you.

At least two sources other than myself will carry this matter to its final conclusion so be informed that your activity from 1967 to date is under close scrutiny.

By the way send me the names of Secretary, Treasurer & Vice President of Youngstown St. David's Society and how many members are there and meetings held.
Yours truly, Douglas Jones.
