# AIR RAID PRECAUTIONS

\* The A.R.P. Warden's Post for your Sector is:  
Near of 29, Romilly Road.

\* The nearest First Aid Post is:  
Canton Clinic, Turner Road.

\* THESE TWO POSTS WILL ALWAYS BE MANNED DURING AIR RAIDS

Help or advice upon A.R.P. matters will be given by the local wardens.

The nearest SENIOR WARDEN is:

W.H. Sandford,  
4, St David's Ave,

Ask him for the name and address of your nearest local Warden and make a note of it here:

Get to know him now and note any changes in the names and addresses given here.

## IN CASE OF INJURY

Wounded and gas contaminated casualties who can walk should go direct to the nearest First Aid Post. If you suspect that your clothing has been contaminated by liquid gas, remove the affected garment immediately and place it outside the house, then wash yourself thoroughly. Stretcher cases will be taken to hospitals.

## GAS MASKS

TAKE CARE OF YOUR GAS MASK. Learn how to put it on and take it off and how to store it properly. Keep it ready for immediate use. If you have no gas mask or if your mask does not fit or seems out of repair, speak to your Warden about it at once.

## LIGHTING RESTRICTIONS

All windows, doors, skylights or openings which would show a light, must be screened so that no light can be seen from outside. Do not use a light in a room unless the blind or curtain is drawn, and remember that a light at the back of the house is just as visible from the air as one at the front.

## AIR RAID WARNING SIGNALS

• WARNING SIGNAL Warbling or intermittent sound on siren; Whistles blown by police and wardens. • GAS WARNING Rattles sounded. • RAIDERS PASSED Continuous sound on siren. • ALL CLEAR Handbells rung.

When you hear the WARNING Signal TAKE COVER AT ONCE and stay there until you hear the continuous sound on the siren.

or the ringing of a handbell. Have your Gas Mask with you. If RATTLES have been used warning you of gas, do not come out until you hear HANDBELLS.

## FIRE PRECAUTIONS

Be ready to deal with an incendiary bomb. Clear all lumber from your attic NOW, and see that you have easy access to the attic or roof space. Provide two buckets filled with water and, if possible, a stirrup hand pump with two-purpose nozzle, either producing spray for dealing with the bomb itself, or producing a jet for tackling the resulting fire.

Have a reserve supply of water in buckets or tubs. Leave used water in bath.

If you have no stirrup hand pump, have two buckets of sand or dry earth near the top of the house, and a shovel with a long handle for putting sand on the bomb. After covering the bomb with sand place it in a bucket which has a few inches of sand in the bottom, and remove it from the house. Scrape up every particle of burning metal. The resulting fire will then have to be extinguished. Buckets of water or a folded blanket kept wet from a bucket of water might be used.

On no account throw water on the bomb or an explosion may result.

If you cannot put out the fire send for help to WARDEN or

A.F.S. at Popham Bros Garages

Romilly Road, W.

★ HANG THIS CARD IN A PERMANENT AND PROMINENT POSITION

How is your Mother getting on now Jack, I hope  
she is alright. We ourselves had a "Blitz"  
in Cardiff a few nights ago. We had a  
good few land-mines, explosives & incendiaries  
dropped very near where we lived. Some people  
are rather badly off, no homes, but we seem  
to have enough rest centres, with the  
help of people offering homes, in safe areas  
to the poor people without, & they are  
taking it well. We ourselves in our house  
& Mabels are alright, it was Neville Street  
that copped it about the worst I think.  
There's a bit of fun in our house though  
about that raid, or rather after, because  
all our slates came off & of course we  
had a lot of holes in the roof, although  
the roof has 'nt. falling in, nor is it  
likely to & here's the proof.

Cardiff news. I suppose you've noticed  
the change of address? The reason is  
that there is no more five, Brook St.  
because in the last Blitz on Barcliff  
Hirrell's street had some German property  
"dropped" on it, & consequently all the  
houses in the street have been condemn-  
ed, they have nearly all been pulled  
down now. I am very glad to say, that  
Hirrell her Mother & her two sisters escaped  
with nothing more than a few scratches &  
bruises; apart from that they were all

scheme will be settled shortly, when Parliament has passed the War Damage Bill.

(3) If bombing has left you without any *ready cash*, because you have lost your job or cannot get to work to be paid or because you have been hurt, you can apply to the Assistance Board.

## COMPENSATION FOR DAMAGE TO HOUSES

IF YOU *own your house* or hold it on a long lease and it is damaged or destroyed, whatever your income, you should, as soon as possible, make a claim on Form V.O.W.1.\* The amount of your compensation and the time of paying it will depend on the passing of the War Damage Bill now before Parliament.

## REPAIRS

IF YOUR HOUSE can be made fit to live in with a few simple repairs the local authority (apply to the Borough or Council Engineer) will put it right if the landlord is not able to do it. But how quickly the local authority can do this depends on local conditions.

## FOOD

IF YOU should find it more convenient not to do your own cooking or you are unable to get gas, water or electricity, then in a rapidly increasing number of places you will find both before and after the raid community kitchens. Here you can get well cooked, hot meals at low prices in cheerful surroundings. If you prefer to do so you can buy the food ready cooked and take it home.

\* You can get this form at your Town Hall or the offices of your Council.

You can find out if there are community kitchens in your town and where they are from any policeman, from the Town Hall or Council offices or the Citizens' Advice Bureaux.

## THE INJURED

IF YOU are injured, treatment will be given at First Aid Posts and Hospitals, and:—

- (a) If your doctor says you are unable to work as a result of a "war injury," you will be eligible to receive an *injury allowance*. Application should be made immediately to the local office of the Assistance Board and you should take with you, or send, a medical certificate from a doctor or a hospital.
- (b) If you are afterwards found to be suffering from a serious and prolonged disablement, your case will be considered for a disability pension.
- (c) Widows of workers and Civil Defence Volunteers killed on duty will receive £2 10s. 0d. a week for ten weeks, after which a widow's pension will become payable. Pensions for orphans and dependent parents are also provided.

Ask at the Post Office for the address of the local branch of the Ministry of Pensions if you want to apply for a pension.

KEEP THIS AND DO WHAT IT TELLS YOU.  
HELP IS WAITING FOR YOU. THE GOVERNMENT, YOUR FELLOW CITIZENS AND YOUR NEIGHBOURS WILL SEE THAT "FRONT LINE" FIGHTERS ARE LOOKED AFTER!

Issued by the Ministry of Home Security in co-operation with the following Departments: The Treasury, the Ministry of Health, the Ministry of Pensions, the Ministry of Food and the Assistance Board.

Dear Anne,

I was so pleased to hear from your father that you & your mother are getting better and I hope we will soon be able to welcome you home. I have missed you in school very much.

I wonder if you will enjoy the letters the children have written to you. Please don't tire yourself by trying to read too many at a time. I am afraid your

classmates have told you all the news and left none for me.

How do you like it at Ogmore-by-Sea? You are fortunate to be at such a pretty sea-side place are you not?

The classes - Std. IV A & IV B and Miss Driscoll & myself hope you will enjoy the good things in the parcel very much.

With very best wishes to your mother & yourself,

A box of Gifts from the British War Relief Society from America, was received today for distribution among the boys. The Gifts comprised boxes of sweets and games.

A party of boys in charge of Mr. Walbrooke and myself visited the "Dig for Victory" Exhibition at the City Hall this morning.

HORTICULTURAL COMMITTEES are to be set up in urban areas with populations of 20,000 and over. Represented on them will be (1) the Council; (2) any local horticultural society; (3) any local allotment society. The Horticultural Committee will

- (a) Encourage the production of food from allotments and private gardens.
- (b) Assist in indicating suitable land for additional allotments.
- (c) Provide expert advice where necessary.

EXISTING OWNERS OR OCCUPIERS of land which is not being fully cultivated are desired to assist Councils by putting land at their disposal, either free of rent, or at such agricultural rent as may be agreed.

### SOME SUGGESTIONS

CULTIVATE your wartime allotment or garden on lines laid down in the Ministry's Bulletin *Food from the Garden* (3d. at your bookseller, or 3½d. post free from H.M. Stationery Office, Kingsway, London, W.C. 2).

REMEMBER that even the best soil needs adequate draining—natural or artificial. Dig and cultivate your land thoroughly; this will increase its fertility and make it possible to economise on fertilizers. But proper manuring—according to the requirements of your soil and crops—is essential to success.

### DON'TS FOR DIGGERS

DON'T throw away or burn waste vegetation, but start a COMPOST HEAP with it. If treated as advised in the Bulletin it will prove a useful source of manure.

DON'T scrap all your choice flowers, plants, and rock garden if you are a gardener already. They may be difficult to replace after the war.

## "Dig for Victory"

— SAYS THE MINISTER OF AGRICULTURE

**L**ET this be the slogan of every one with a garden : of every able-bodied man and woman capable of digging an allotment in their spare time.

"In war we must make every effort. All the potatoes, all the cabbages, and all the other vegetables, we can produce may be needed. That is why I appeal to you, lovers of this great country of ours, to dig, to cultivate, to sow, and to plant.

"Our fellow-countrymen in the Forces abroad and at home are playing their part. I am confident that you, equally, will do yours by producing the maximum food from gardens and allotments."

## WANTED 500,000 MORE ALLOTMENT HOLDERS

HOW TO GET A WARTIME ALLOTMENT. Fill up the accompanying coupon and send it to your Borough or Urban District Council.

THE COUNCILS, as agents of the Minister of Agriculture, will, wherever possible, provide 10-rod allotments for suitable applicants. They will also provide practical instruction through their own officers, or by the co-operation of professional gardeners or nurserymen.

MONEY CAN OFTEN BE SAVED if plot holders form themselves into an Allotment Society which can buy co-operatively seeds, plants, manures and implements. Such Societies may take over from the Councils the cultivation of land on which the Councils have entered. The National Allotment Society (Drayton House, Gordon Square, London, W.C.1), will, where required, assist plot holders in the formation of an Allotment Society.

## The schools in war-time

Memorandum No. 27

### The Wild Fruit Crop

THE Ministry of Food is extremely anxious that the fullest possible use should be made of the blackberry crop this season, to make up for the poor crops of soft and stone fruit and to enable the preserves ration to be maintained at its present level. Other ripe fruit—bilberries, crab apples, elderberries, rowan berries, sloes—will also be available in some districts.

It is hoped that by organised local efforts all over the country some thousands of tons of blackberries and other wild fruit will be harvested. The Board hope that schools will play an active part in this effort. Many opportunities will occur, e.g., on nature study rambles and as a useful spare time occupation for children.

The fruit—for which, under the controlled price, the maximum of 3d. per lb. will be paid for blackberries and 2d. per lb. for crab apples—should be taken to the local fruit preservation centre. Schools organising blackberry picking should accordingly get in touch with their fruit preservation centre as soon as possible, to arrange where and when the fruit is to be delivered. If out of reach of a convenient centre or unaware of its address, they should apply to the Secretary of the County Federation of Women's Institutes (whose addresses are given overleaf), or to the Local Food Office.

Where schools have already made arrangements for disposing of the fruit they pick there is no need to upset these arrangements.

Where a school has facilities for making jam it can obtain sugar from the Local Food Office for preserving any fruit which its scholars have picked, and can retain the jam for consumption in the school outside the ration.

The following "points for pickers" should be kept in mind:—

Make sure you have the permission of the owner of the land.  
Overripe blackberries are unfit to travel.

Fruit picked immediately after rain will go mouldy and be useless for preserving.

Shut gates; be careful not to walk on crops; do not make gaps in hedges, and do not make fire near any hay rick or ripening corn, or on any dry heath or woodland.

# If the **INVADER** comes

## WHAT TO DO — AND HOW TO DO IT

**I** If the Germans threaten to invade Great Britain. If they do so they will be driven out by our Navy, our Army and our Air Force. Yet the ordinary men and women of the civilian population will also have their part to play. Hitler's invasions of Poland, Holland and Belgium were greatly helped by the fact that the civilian population was taken by surprise. They did not know what to do when the moment came. *You must not be taken by surprise.* This leaflet tells you what general line you should take. More detailed instructions will be given you when the danger comes nearer. Meanwhile, read these instructions carefully and be prepared to carry them out.

### I

When Holland and Belgium were invaded, the civilian population fled from their homes. They crowded on the roads, in cars, in carts, on bicycles and on foot, and so helped the enemy by preventing their own armies from advancing against the invaders. You must not allow that to happen here. Your first rule, therefore, is:—

- (1) IF THE GERMANS COME, BY PARACHUTE, AEROPLANE OR SHIP, YOU MUST REMAIN WHERE YOU ARE. THE ORDER IS "STAY PUT".

If the Commander in Chief decides that the place where you live must be evacuated, he will tell you when and how to leave. Until you

receive such orders you must remain where you are. If you run away, you will be exposed to far greater danger because you will be machine-gunned from the air as were civilians in Holland and Belgium, and you will also block the roads by which our own armies will advance to turn the Germans out.

### II

There is another method which the Germans adopt in their invasion. They make use of the civilian population in order to create confusion and panic. They spread false rumours and issue false instructions. In order to prevent this, you should obey the second rule, which is as follows:—

- (2) DO NOT BELIEVE RUMOURS AND DO NOT SPREAD THEM. WHEN YOU RECEIVE AN ORDER, MAKE QUITE SURE THAT IT IS A TRUE ORDER AND NOT A FAKED ORDER. MOST OF YOU KNOW YOUR POLICEMEN AND YOUR A.R.P. WARDENS BY SIGHT, YOU CAN TRUST THEM. IF YOU KEEP YOUR HEADS, YOU CAN ALSO TELL WHETHER A MILITARY OFFICER IS REALLY BRITISH OR ONLY PRETENDING TO BE SO. IF IN DOUBT ASK THE POLICEMAN OR THE A.R.P. WARDEN. USE YOUR COMMON SENSE.

10<sup>th</sup> The School was closed on 8<sup>th</sup> & 9<sup>th</sup> in celebration of Termination of Organised Hostilities in Europe. This morning the attendance was so meagre that it was decided to close School for the day - no registers were marked.
